UB Campus Dining & Shops – Wins CBORD Visionary Excellence Award

UB Campus Dining and Shops (CDS) was named the winner of the 2014 CBORD Visionary Excellence Award which was announced at CBORD's 35th annual User Group Conference (UGC), October 13, 2014 in Huntington Beach, CA. Keith Curtachio, director of Information Technology for CDS, was on hand to accept the award.

CBORD is the leading provider for campus ID card systems for college and universities, as well as providing solutions for Food Service, Online and Kiosk Ordering, E-Commerce and Student Discounts. CDS uses several CBORD products including CS Gold, Foodservice Suite, Mobile ID, NetNutrition, Webfood and Student Advantage.

The Visionary award exemplifies innovative or creative uses of CBORD solutions. This innovation may be demonstrated either through the use of existing CBORD products in unique ways, or by the integration of CBORD software with other marketplace solutions. Visionaries illustrate what it means to be pioneers in systems integration and developing new business applications that create valuable services for their customers.

CDS was also a finalist for the One CBORD award this year.

"We were honored to be nominated and a finalist in these two categories," says Curtachio. "Winning the Visionary award only strengthens our commitment to consistently offer products and services to our customers that provide the greatest convenience and satisfaction."
