

After logging in, select Get Food. You should see this screen:

Click on the address link on the top and you will get a popup screen. You **MUST** click on the “On Campus” radio button. If you enter an address with the “off campus” radio button selected, it will not allow delivery regardless of what is typed into the address fields, even if it is an on campus address.

When “On Campus” is selected, you will have a drop down box where you will select your building. Then type in your room number in the Room field and select SAVE.

That address is now saved and will be your default delivery address. If you want your order delivered to a different address, just click on the address link at the top and add another “On Campus” address using the same procedure.
